

TCM Forklift Part

TCM Forklift Parts - Forklift trucks are an important player in the material handling field of every global industry. Transporting industrial goods happens every day on our industrious planet. Initially innovated as industrial vehicles during the 1930s in the U.S., lift trucks gained popularity following World War II during the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these machinery spread worldwide.

In 1949, established by Mr. N. Niwa, the first Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was recognized. Currently the company is simply referred to as TCM Corporation. Throughout the years, TCM forklifts have become a worldwide leader in lift truck manufacturing and have built a solid reputation in the business. TCM started constructing lift truck manufacturing locations outside of Japan in the 1980s and is currently engaged in lift truck manufacturer at three foreign factories in Europe, China and the United States.

With over fifty years of accumulated expertise and technology, TCM has been proudly manufacturing many models of industrial lift trucks, making their models known all over the globe. With an energetic and strong staff, TCM has been able to continually work towards becoming a future leading material handling business.
