

Clark Forklift Part

Clark Forklift Parts - Performing globally, there are currently 350,000 Clark forklifts and lift vehicles in operation, with in excess of 250,000 of those in service in North America. Clark has five major lines of lift trucks across the world, making it one of the most expansive organizations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 distinctive designs of lift trucks, with components covering more than 120,000 particular items for all of its automated equipment. Your local Clark Supplier is your total source for availability of all your parts needs offered by Clark Totalift.

Clark's phenomenal Parts Distribution Centers are conveniently stationed in Louisville, Kentucky, which serves both their customers and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing manufacturers. Motivated to offer the highest level of value and service to our customers, Clark remains on the leading edge when it comes to improving output and benefiting performance.

Globally, Clark has one of the most impressive dealer support networks. With over 550 locations globally, seller representation in over 80 nations and 230 locations in North America, their high level of dedication to their clients predominates the material handling market.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of refinement in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is now a customary feature on every forklift.

Clark has a continual objective to possess the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be internationally certified with quality standard ISO 9001 in all of its manufacturing facilities. Also, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any number of environmental limitations, thus placing them in a prevailing industry position.

Clark has selected the very economical and advantageous structure of "Lean Manufacturing" for its assembly facilities and application of resources. This system was developed to acknowledge the most efficient method of production plant stewardship and ensuring maximum proficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

By working in concert, Clark's product suppliers and engineers communicate towards improving product proficiency while minimizing costs. The contemporary value engineering agenda combines modern product development and offers improved client support and service within the industry.
