

## Forklift Spreader Bar

Forklift Spreader Bars - ELME has been proudly operating since the year 1974, becoming the largest independent spreader manufacturer all over the globe. They are a devoted maker of spreaders used for lots of several applications like the swap bodies, trailers, and handling of containers.

Engineering is done in-house by utilizing all the most up-to-date CAD systems and FEM tools. The ELME company now has over 125 staff members. Their spreaders are supplied to reach gantry, quayside, ship-to-shore cranes, stackers, straddle carriers and lift trucks all-over the globe.

The product collection of ELME include a lot of spreaders designed for a variety of container and trailer handling operations. A few of their inventory include: Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers as well as a wide range of attachments.

ELME manufacturing and production is done in a highly automated purpose built factory. In 2008, they made more than 1150 spreaders by way of using top quality parts in order to guarantee dependability and high standards while offering competitive prices. Major features of ELME include design simplicity, market response and innovative modular spreader concept.
