

Meritor Parts

Meritor Parts - The Meritor Company is a leading global dealer built upon 100 years of tradition of service and quality. Meritor concentrates on integrated systems with several modules and components to the original machinery makers and aftermarket equipment in the industrial and transportation sectors.

Meritor prides itself in the company's distinctive energy and believes that this energy contributes to their competitive advantage within the worldwide operations. The business values all of their clients and wants to ensure their success while anticipating their various needs. Meritor starts with a culture that values diversity of people and their broad thought processes. Operating in 19 nations and hiring over 11,200 individuals, Meritor encourages collaboration and innovation among a team of experienced professionals.

By just employing future focused workers, Meritor strongly thinks these top-caliber people will be able to rapidly get used to to changing environments and demonstrate the performance and commitment needed so as to reach results in the competitive materials handling trade. The business empowers their teams to make sound business decisions in order to improve the overall success of the company. In return, Meritor provides all their workers various chances for personal and professional growth.

Their Advanced Engineering team is at the forefront of components and system engineering which include axles, drivelines, suspension and braking systems intended for medium and heavy duty trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the entire Asia Pacific region. This team is also responsible for supporting the needs of their international engineering employees.

The Quality team at Meritor is a customer-focused and dynamic group that is dedicated to ensuring optimum development at their production plants and aftermarket distribution facilities which are located on 5 continents and in 19 countries.

They have their supplier network that is particularly located to support the growth of the business. Each regional team has internationally supported quality systems, initiatives and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a fact-based, data-driven method to decision making in each and every part of the trade. The DFSS or Design for Six Sigma ensures product reliability within each region. The team is also included transactional Green Belts who make use of Six Sigma tools to business processes and implement lean methods.
